Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes). Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Field Maple - Reduce by 2.5 - 3m overall to reshape. Crown lift to 4.5m. Remove 1x lower large limb on south side. Remove any dead, crossing or epicormic branches as necessary.
Reason - to maintain tree at a sensible size to help keep the tree stable as large rot cavity at base.
