2 Level 1 - Callout 1
1 : 50

This architectural section drawing illustrates the vertical structure of a building, showing three distinct levels and their corresponding elevations:

- Level 2 (5000):** The uppermost level shown, featuring a grid of structural columns and beams. It includes three sets of windows and three sets of service hatches (small rectangular openings) located between the columns.
- Level 1 (2700):** The middle level, which is a thick, solid black horizontal band. It contains three sets of doors (large rectangular openings with diagonal lines) and three sets of service hatches.
- Level 0A (150):** The ground level, indicated by a thick black horizontal band at the bottom. It shows the foundation and the ground surface, with some landscaping elements like trees and shrubs depicted on the left and right sides.

The drawing uses a combination of solid lines, dashed lines, and hatching to represent different materials and structural elements. The overall layout is symmetrical, with columns and openings aligned vertically across the levels.
