Subject: RE: APP/18/00176- 10 Rails Lane

Dear Emma

Sorry for the delay in sending the additional requested information.

Please find attached amended drawings incorporate the additional information requested.

In summary –

- * proposed section A-A amended to show the extent of the rear wall of 1ft floor flats. As you will note that windows at rear wall are set away more than 3.0m away from the ground floor parapet wall and duct hood terminate well below the top of parapet wall.
- *Canopy size & over hang details are noted in the drawing.
- * Kitchen extract duct route amended to incorporate all component within the premises (i.e ESP units, Carnon filters, Air Multibox fan & Silencer unit).
- * Noise level will be reduced will be installing the fan unit on anti vibes and canvas connection, further silencer unit reduce the noise level to an acceptable threshold level.

Our ventilation/ducting specialist advised that the installation system and specification of the component noted in the attached drawings will reduce the noise level considerably and keep within the acceptable limit. We therefore have no noise survey conducted at this stage. If Environmental team feels that this survey should be conducted prior to installation, could this be discharged through a planning condition?.

We look forward to hear from you soon, however should you require any further information please do not hesitate to contact us.

Kind regards

Ravi
