Thank you for consulting me on this application. Please accept my apologies for the delay in responding.

The application is accompanied by Ecological Mitigation Strategy (Alex Clayton, June 2018) which provides useful details on the proposed measures for addressing the potential presence of reptiles and nesting birds, as well as details on new native plantings. These measures are all acceptable and should be implemented as described.

If you have any queries please don't hesitate to contact me.

Kind regards,

Tristan
