

Application for tree works: works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area.
Town and Country Planning Act 1990

Publication of applications on planning authority websites.

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website.

If you require any further clarification, please contact the Authority's planning department.

1. Applicant Name, Address and Contact Details

Title:	Mrs	First Name:	Anni	Surname:	Smith
Company name:					
Street address:	The Old Rectory, Bidbury Lane				
	Telephone number:				
	Mobile number:				
Town/City:	HAVANT				
	Fax number:				
Country:	Email address:				
Postcode:	PO9 3JG				
Are you an agent acting on behalf of the applicant?					
☒ Yes ☐ No					

2. Agent Name, Address and Contact Details

Title:	Mr	First Name:	christopher	Surname:	freeborn
Company name:	freeborn tree surgeons				
Street address:	10 dominie walk				
	Telephone number:				
	Mobile number:				
Town/City:	lee on the solent				
	Fax number:				
Country:	Email address:				
Postcode:	po138jl				
	freeborntrees1@gmail.com				

3. Trees Location

Please provide the address of the site where the tree(s) stands (full address if possible):

House: Suffix:

House name:

Street address:

Town/City:

Postcode:

If the location is unclear or there is not a full postal address, either describe as clearly as possible where it is (for example, 'Land to rear of 12 to 18 High Street' or 'Woodland adjoining Elm Road') or provide an Ordnance Survey grid reference:

Easting:

Northing:

Description:

4. Trees Ownership

Is the applicant the owner of the tree(s)? ☒ Yes ☐ No

5. What Are You Applying For?

Are you seeking consent for works to a tree(s) subject to a TPO? ☐ Yes ☒ No

Are you wishing to carry out works to tree(s) in a conservation area? ☒ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

1. Sycamore tree. Reduce by up to three metres and crown raise. The tree needs crown raising to 5.2m over the highway which is a legal requirement, the tree is close to meeting the house which is a listed building, and needs to be kept clear of the property to prevent any future damage. The tree was pollarded some twenty years ago in my estimation and subsequently the tree should be reduced to keep excessive weight off the new shoots as they don't have the structural quality of natural growth. (being next to a road this could become a hazard in the future, as sycamore regrowth is prone to failure). View the attached photos, I have highlighted many suitable lateral branches to cut the tree back to and it will lend itself very well the reduction specified.
2. The Yew trees need to be crown raised over the roadside to 5.2 metres, they also need pruning away from the property as they are nearly touching the building. Also, they need dead wooding, and removal of any dying or dangerous branches, and/or crossing branches.

7. Identification Of Tree(s) And Description Of Works

3. As number 2.
4. The bay tree has grown from a very old coppice and therefore does not have strong unions at the base of the tree, we would like to reduce this by 50%, and re prune it every five years to manage it at this size. (again, an important job being next to the road). The bay tree is also taking light away from the yew trees.
5. Sycamore tree, crown raise to 5.2m over road, clear away from telephone wires and reduce by three metres to suitable growth points to balance the crown.
6. Yew tree as per number 2.
7. Yew tree as per number 2.
8. Yew tree as per number 2.
9. Prune yew tree to give a two-metre clearance from the house, due to the proximity and due to it overlapping the house, reduce crown by up to two metres (to balance) and deadwood. (see attached photographs)
10. Remove fallen willow.
11. Deadwood Yew tree, remove broken, crossing and dying branches.
12. Norway Maple (labelled as a sycamore) three metre crown reduction, all to suitable lateral branches, of which there are many, to give some space to grow for the other trees close by and to improve the light in the property.
13. As number 12.
14. Norway maple on boundary, reduce westerly limb by up to four metres as the tree is significantly unbalanced in that direction, and the rest of the tree by up to three metres, to keep clear from there other trees and maintain a balanced tree all over.
15. Plum, fell, overshadowed by the other trees, in decline with no vigorous growth.
www.freeborntreesurgeons.com
16. All trees on the road side to be pruned with a platform for safety reasons and also to ensure the highest quality of workmanship and that all cut can be made to laterals without damaging any of the said laterals in the process of the job. Which is much easier to do from a platform.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

☐ Yes ☒ No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.

If YES, you are required to provide for:

☐ Yes ☒ No

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)

Are you providing additional information in support of your application?

☐ Yes ☒ No

9. Authority Employee/Member

With respect to the Authority, I am:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

Do any of these statements apply to you?

☐ Yes ☒ No

10. Trees - Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/ drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.

Date
