Commenter Type: Complainant

Stance: Customer made comments neither objecting to or supporting the Planning Application

Comment Reasons:

Comment: Why is the stable complex not nearer to the Wren Centre or over on the west side near to the previous location, where the stable were dismantled a few years ago.

Where will the muck heap be positioned to prevent it contaminating the river, as the ground to the East of the site gets waterlogged then runs into the river.

Does the complex have to have a WC etc., if so where will it be located?

I have no objection in principle but the site location should be closer to the existing building instead of being an island in the field.
