Subject: Application for 2 Langstone Road

APP/17/00351 - The White House, 2 Langstone Road, Havant

Dear Ms Pickup

My letter to the previous plans still stands.

I have looked at the revised plans for this 1930s art deco house and consider that the proposed second-storey extension with terrace is just as unacceptable and out-of-scale as it was in the previous plan. The change of colour does nothing to improve its over-prominent appearance from the public realm and it would have an adverse effect on the appearance and character of this locally unique property.

Havant Borough Council attaches considerable importance to the design of local buildings and extensions. The applicant should be asked to provide a drawing showing the view of the SE aspect, as seen from Langstone Road, as it is clear that the terrace would be very visible, together with the second-storey extension.

There would be no way of controlling what was put on the terrace e.g. umbrellas, washing, plants, furniture etc. and the whole thing would be an eyesore - even with nothing on the terrace.

The whole proposal is an overdevelopment of the site and the application should be refused.

Yours sincerely

Ann Griffiths
