New development of VW van centre on Dunsbury Park

Breeze (Southampton Ltd) have recently leased a new building on Dunsbury Park as per the accompanying documentation. This is a purpose built unit for commercial vehicle sales and service.

We are applying for the advertising consent for the 3 signage elements on the proposed scheme,

Sign A – Retailer name fascia sign which is white aluminium on a steel sub-frame, black to white acrylic letters which illuminate internally when lit.

Sign B – Volkswagen commercial vehicles and service fascia sign which is silver aluminium on a steel sub-frame, black to white acrylic letters which illuminate internally when lit and an internally illuminated Volkswagen logo.

Sign C – Is a double sided version of sign B mounted on a 4500mm high steel pole.

The site is still under development and so we do not have any photographs, we have supplied artist/architect drawings of the completed building and location maps from the park owners, also supplied is a signage scheme showing where the signs will be located on elevation and plan views of the site.

If you require any further information please contact the below

Regards
