On Behalf Of: Development Engineer - Highways

Comments

The Transport Statement states

3.7 The existing number of spaces on site total 10 although only 8 were sought by highways to be sufficient for Aura House including the extension yet to be implemented. Although this proposal takes up the space currently occupied by two car spaces this is compensated by the rejigging of the spaces and incorporating some tandem spaces. As such the minimum of eight spaces can be exceeded allowing the new proposals to be provided with an additional car parking space bringing the new proposals up to nine spaces. Current turning facilities are not affected, and vehicles can enter and exit the site in a forward gear.

The block plan does not show this. I would like a plan showing the parking and overlays showing, by overlays that for each parking space a vehicle can turn on site and enter the highway in a forward gear
