WARNING

Significant hazards relative to the architectural design shown on this drawing
have been assessed and highlighted with reasonable skill and care using a
warning triangle system.
This drawing is to be read in conjunction with all other hazards/risks which have
been identified and recorded within construction phases H&S plan.
It is assumed that all works on this drawing will be carried out by a competent
contractor working, where appropriate, to an approved method statement.

Significant hazards are defined as :-
• Those not likely to be obvious to a competent contractor or other
designers
• Those of an unusual nature
• Those likely to be difficult to manage effectively.
