

Dear Mr Oliver,

Planning Application APP/17/00342 Foreshore at South Hayling, Sea Front, Hayling Island

Thank you for your recent consultation. I would draw your attention to the Planning Statement para 4.4 and the BMP Non Technical Summary table 7.1 which set out the archaeological considerations. Section 14 of table 7.1 indicates that the archaeological potential is low and will be mitigated by only moving material within the active beach, and will avoid any impact on the Second world war beach defences. It also indicates that should archaeological material be encountered provisions will be made to have it inspected and a judgement made as to best practice. At presents with the intention to work within active each material only such potential is low.

I would not raise any archaeological issues.

Yours sincerely

David Hopkins
(County Archaeologist)
