

Proposal: Front extension to garage and garage roof, removal of existing doors and replacement with single double door.

Site Address: 63 Old Copse Road, Havant, PO9 2YA

Case No: APP/17/00897

I can confirm as you can see from the photos sent there are no trees close to the garage that is to be extended the closest vegetation consists of clumped shrubbery previously cut back to the ground at some point a few years ago.

Regardless of this we will adopt care and consideration when excavating the footing for the 1.3m extension to the front of the garage.
