

Good afternoon Ms Ballum

Further to your email below please find attached PDF's of the elevations which illustrate the windows / doors. Please note the following:

- All the existing windows / doors will be replaced. None will be retained.
- Replacement units will either be uPVC, casement, sash windows or Alumimum door sets / screens as detailed on the attachments. For ease I have numbered each unit with a description in the notes section. I have amended the elevations to show parts of the internal rear garden which were obscured by either timber fences or parts of the building.
- uPVC units will be wood grain effect, white in colour.
- Alumimum units will be mushroom, RAL colour BS 10 B19
- Glazing bars shown, including direction of opening on all replacement units.

I do hope the information now submitted will enable Condition number 5 to be discharged. I look forward to hearing from you shortly.

Regards

Bernard Harding
