Lillevilla

The first choice for **Quality** log cabins

Lillevilla
LOG CABINS

Lillevilla the home of quality cabins...

Lillevilla Log Cabins has become a name people associate with quality and reliability.

Production has increased dramatically and this year more than 70,000 units will be produced for the worldwide market.

The Lillevilla range is manufactured in Finland by Luoman, a family run business, which prides itself on its reputation for the highest quality products and expertise in the production of traditional Finnish wooden cabins.

The reason behind the phenomenal success of the Lillevilla range is due to the durable, dense grained and slow grown timber and highly advanced automation that guarantees unbeatable quality at very competitive prices.

We have listened to our customers and have recognised their needs.

Quality, affordability and service are always at the forefront of our minds. We will help and advise you every step of the way, from placing your order to the completion of your cabin and that's not all. We also offer...

- **Expert advice on all your installation needs**
- **Free Hi-Ab delivery to most of the UK**
- **Ex-stock availability on 99% of our range**

our timber from near the arctic circle is naturally denser and therefore better for building...
