Commenter Type: Complainant

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am not happy with the decision to allow the petrol station to remain open 24 hours a day.

The light pollution is not from flood lights, yes it is from car headlights but also from all of the lights from signage and the forecourt itself. No lighting is reduced after 11pm.

Also there may be cones across the opening on park lane but they are so far apart cars can still freely drive in and out all night long.

How is it justified that this petrol station can remain open all night when you have the 24hr petrol station at Asda just up the road and the Tesco 24hr petrol station open in Havant. Both of which are not in residential areas.

What with the light pollution and noise from the petrol station a good nights sleep is almost always impossible.

My husband and I also feel that because of the 24hr opening of the petrol station it will dramatically decrease the amount our house is worth, making it very difficult to sell if we ever wanted to.

Sincerely

C.lindemere
