Subject: RE: Further information - APP/17/00633

Thank you for this further information.

The only outstanding document required now is a detailed maintenance plan for the surface water drainage elements, detailing who will be responsible for the long term maintenance of the elements, what this maintenance requires and evidence that the adopting body is aware of and agree to their responsibilities. We are happy for you to condition the production of this document.

Many Thanks

Flood & Water Management
