

granny  annexe[®]

Independent living in the heart
of the family

www.grannyannexe.com

Granny Annexe are passionate about building homes to help the ageing population. Installing a Granny Annexe for an elderly relative (or indeed a younger family relation) is the ideal solution to meeting their care needs, whilst giving them and their family peace of mind.

An increase of elderly people requiring nursing home care may put a strain on councils resources, especially with Government cuts of 19.6% on funding for social care.

Granny Annexe creates a solution to meeting family care demands - all they require is the understanding and the authorisation of planning permission from a local planning authority (LPA) to proceed.

EXAMPLE OF A GRANNY ANNEXE BUILT IN HAMPSHIRE

21%

Increase of residents in nursing/residential homes since 2005.

30%

Increase in people aged 85 and over (the group most likely to need care) between 2005 and 2014.

GRANNY ANNEXE - CUSTOMER CASE STUDY

Our customer required a Granny Annexe for the sole use of her disabled mother to live in, who cannot complete daily tasks or walk unaided. The mother is recently widowed and needs extra care and assistance whilst still enabling her to have her own independence.

Having a Granny Annexe built in the garden means there is a greater peace of mind and sense of safety for her, while the family can offer much more support without the need for external carers.

- Mrs Wood, Granny Annexe built in Cambridgeshire
