

Hi Steve/David

I have seen Barbara Gabder's e-mail earlier today suggesting a further extension of time which I am happy to accommodate if you require additional time for consideration.

In response to Michelle's consultation comments, I attach a revised site plan which covers all of the points she has raised - I am unsure whether she has made these comments on our latest revised plan or if they were made on the original landscape drawing no.17/1000/P05 which became irrelevant when the building was adjusted in the site to create more space for the hedging etc.

I look forward to hearing from you in due course.

Kind Regards
Peter Galloway
