Subject: Planning Application APP/14/00547 Land west of Horndean Road and south of Southleigh Road

Dear Mr Oliver,

Planning Application APP/14/00547 Land west of Horndean Road and south of Southleigh Road

Thank you for your consultation regarding condition 23 the archaeological condition. There is at present no documents online that relate to condition 23, however I am able to bring you up to speed regarding the archaeological matters, which have been progressing. The archaeological condition secures two stages of archaeological work, an assessment across the site and any necessary mitigation arising from the discovery of archaeological sites. I am aware that the archaeological assessment has taken place and I have been sent a copy of the report.

It was my opinion that the results indicated an area where further archaeological work is merited and I have expressed that view to the applicant's archaeological consultant. As a result a suggested area of further archaeological work discreetly targeted against the results of the assessment has been shared with me and I am happy to endorse it. I anticipate that this work is in some stage of planning but I have not yet heard if/how the matter is being taken forward.

In summary good progress is being made; some archaeological work remains to be carried out; but no submission regarding the discharge of the condition is currently on your web site. I will keep my eye on it over the next few days and will respond more formally when any documentation appears,

Sincerely

David Hopkins
(County Archaeologist)
