RE APP/16/00678 Northney Coastal Path

Further to our telephone conversation last week, Please find enclosed the following additional information: Certificate C

Elevation of proposed wall and existing shown dotted on it. It will be essentially a clay bank, built to a detailed design by the Solent Coastal Partnership. The principals have been agreed with the sketch cross section, which forms part of our documentation. It is proposed to use a 1200mm wide path, to minimize the impact on coastal squeeze and the shoreline.

If there are any further queries do not hesitate to contact me.

Yours sincerely,

Derek Bowerman
