Dear Mr Oliver,

Planning Application APP/14/00547 Land west of Horndean Road and south of Southleigh Road

thank you for forwarding the written scheme of investigation (WSI) for the archaeological evaluation at land west of Horndean Road. The archaeological condition secures two stages of work, a preliminary archaeological survey (sometimes called an evaluation) for which this is the WSI and the archaeological excavation of archaeological remains identified by this survey. I am happy to confirm that this WSI meets the archaeological concern for preliminary archaeological evaluation. Indeed I am aware that the evaluation has been completed. I have been sent a copy of the report and anticipate that the applicant intends to submit a copy to the planning authority. However the archaeological evaluation has identified evidence that merits further archaeological investigation and on that basis I would not recommend that the archaeological condition is discharged until provision has been made for the additional archaeological work.

Earlier this summer, and following receipt of the evaluation report, I was in correspondence with the applicant's archaeological advisor. An area for further archaeological work was suggested which I agreed would be appropriate to the remaining archaeological concern (attached). I am not aware that this matter has been taken forward nor have I received a WSI for this second stage of work. I am hopeful that the applicant has this matter in hand but please do share this email with them in case I can be of assistance.

In summary, I am aware that the applicant has taken steps to address the archaeological condition, and this is welcome, but some archaeological work remains outstanding and I would not recommend the discharge of the archaeological condition until this matter has been addressed.

Yours sincerely
David Hopkins

Dear David,

Further to our phone discussion please find attached the WSI, which has been submitted in order to discharge condition 23 of the outline consent. I have also attached your original email to use, for your reference.

Thanks for your help on this.

Regards

Lewis
