7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Appropriateness of design and impact on the character of the area
- (iii) Effect on neighbouring properties

(i) Principle of development

7.2 The application site is located within the defined urban area, therefore development is considered acceptable in principle subject to development management criteria.

(ii) Appropriateness of design and impact on the character of the area

7.3 The proposed side extension will be set back from the front building line of the host dwelling and approximately 10m back from the front boundary. Due to the varying styles of properties available within Summerhill Road it is not considered that this would have a significant visual impact on the character of the area. The materials to be used are to be consistent with those used on the original house, minimising any impact.

7.4 The design and appearance of the proposal is deemed appropriate in context to the main building and is therefore considered to be acceptable, meeting the requirements of Policy CS16 of the HBLP (Core strategy). It is considered that the scheme would not result in an adverse impact on the visual amenity of the locality.

(iii) Effect on neighbouring properties

7.5 The proposal is to be attached to the western elevation and therefore consideration has been taken to the impact on the property to the west (25 Summerhill Road).

- 7.6 Two dormer windows are proposed to both the northern and southern elevations to provide light to the kitchen/utility area. No windows are proposed to the western elevation and therefore will the proposal will not result in overlooking to the neighbouring property.
- 7.7 25 Summerhill Road has two small windows and an access door on the ground floor of the eastern elevation. A window to the first floor extends out from the wall and provides glazing facing in both a north easterly and south westerly direction. When considering the orientation of the properties it is not considered that the proposal will impact the neighbouring property in terms of loss of light or overshadowing. The submitted plan shows there will be a separation gap of approximately 2.5m between the proposal and No. 25 Summerhill Road.
- 7.5 Consequently, it is considered that the proposal will not appear overbearing or lead to overlooking and would have limited and acceptable impact on the properties immediately adjacent to the application site and the properties opposite or to the rear, meeting the requirements of Policy CS16 of the HBLP (Core Strategy). It is noted no letters of objection were received with respect to the scheme.

8 Conclusion

- 8.1 The scale, siting and design of the proposal would have limited and acceptable impact on the neighbours and is therefore considered to be appropriate and recommended for approval.
