Mill Rythe Holiday Village, Havant Road, Hayling Island,
Hampshire, PO11 0PB

The historical maps shown were reproduced from maps predominantly held at the time adopted for England, Wales and Scotland in the 1840s. In 1854 the 2,500 scale was applied for mapping the Isle of Wight. In 1898 it was revised to the 1:2,500 scale and the map was reissued. The map covers the whole of the Isle of Wight and is divided into the parishes of the island. The published date given below is often some years later than the surveyed date. Before 1938 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Mill Rythe Holiday Village, Havant Road, Hayling Island, Hampshire, PO11 0PB

The historical maps shown were reproduced from maps predominantly held at the time adopted for England, Wales and Scotland in the 1840s. In 1854 the 2,500 scale was applied for reappearing the map. In 1986 it was revised to the 2,500 scale and the map was reissued to be the definitive parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Ordnance Survey Plan

Published 1969

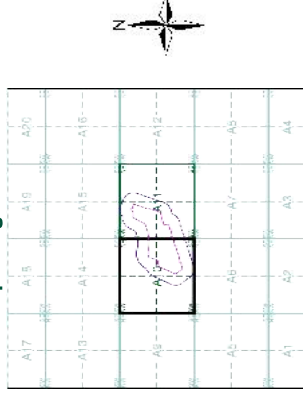

Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the time adopted for England, Wales and Scotland in the 1840s. 1864 the 2500 scale was adopted for mapping the area. The maps were then revised to the 1:2500 scale in 1969. The published date given below is often some years later than the surveyed date. Before 1938 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

The SIM cards (Ordnance Survey's 'Survey of Information on Microfilm') are published in two editions of mapping which were produced and published in 1980. The main edition is an area-based map, published from 1947 to 1994, and contains detailed information on roads, railways, and land-use. These maps were produced at both 1:2,500 and 1:1,250 scales.

Large-Scale National Grid Data

Published 1994

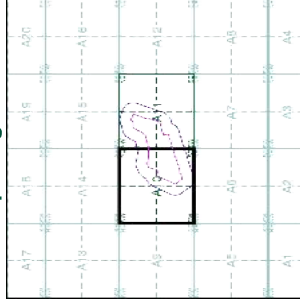

Source map scale - 1:2,500

Large Scale National Grid Data superseded SIM cards (Ordnance Survey's Survey of Information on Microfilm) in 1992, and continued to be produced until 1994. These maps were the first to be produced on a digital basis and so provide details of the terrain and features that are not shown on the topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

Large-Scale National Grid Data

Published 1996

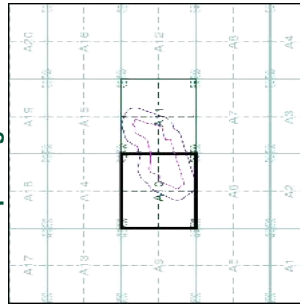

Source map scale - 1:2,500

Large Scale National Grid Data superseded SIM cards (Ordnance Survey's Survey of Information on Microfilm) in 1992, and continued to be produced until 1995. These maps were the forerunners of digital mapping and so provide details of the terrain, buildings, roads, railways, and other topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:12,500 scales.
