Details (Scale 1:100)

The following planting to be distributed across the beds indicated

Planting List:

Species	Pot
Aronia arbutifolia Brilliant	2/3ltr
Berberis Aurocoma	2/3ltr
Ceanothus thy Repens	2/3ltr
Cistus corbariensis	2/3ltr
Contoneaster lacteus	2/3ltr
Cornus alba Elegantissime	2/3ltr
Colinus grace	2/3ltr
Hydranges Annebelle	2/3ltr
Leucothoe Scarletta	2/3ltr
Lavendula Grosso	2/3ltr
Philadelphus corinali Aureus	2/3ltr
Physocarpus Diablo D'or	2/3ltr
Pittosporum tenifolium	2/3ltr
Viburnum Davidi	2/3ltr
Viburnum Plicatum Maeisi	2/3ltr

Tree Species

Acer Campestre (William Caldwell) 10-12dr

Management Plan: 82A Jubilee Rd, Waterlooville

The Planting shall be carried out in the next available planting season following building completion.

All plants shall be planted at 3 plants/ sqm to the correct depth and with planting compost and a base feed put in around the roots of each plant.

All planting will be in good quality grade topsoil with planting compost mixed in around the root balls.

All planted areas will be covered in a mulch of amenity bark chippings to a depth of 0.75m (75cm) and the plants will be watered in to ensure correct soil settlement around the root systems.

Weekly watering during the growing season will take place.

Following planting, monthly visits will be made to the site to ensure all the plants are growing and any necessary watering shall be carried out to ensure successful establishment.

Any pruning and cultivation of the new plants will be carried out during the first 12 months and then each year depending on their requirements.

Any plant losses during the first five years will be replaced in the correct planting season with identical species to ensure the entire scheme stays as originally planned.
