rev: date: note:

Levels & heights based on topographical survey data and other information interpreted

- Material storage areas
- Contractors parking
- Site office
- Temporary access road
- Temporary top soil storage

Contractor's wheel washing facility:
To minimise dirt & mud being deposited onto the highway during construction wheels to be washed by pressure washer before exiting. This facility together with a sign requiring drivers to wash wheels before leaving site to remain until the completion of the development.
Provide drainage gully (taken to soakaway) to prevent run-off to highway.

Proposed levels – finished ground floor levels (subject to engineers design)

Foul & sw drops where shown are for guidance purposes only & may vary due to site conditions, SWA & building control approval, etc.
