☒ Yes ☐ No

5. What Are You Applying For?

Are you seeking consent for works to a tree(s) subject to a TPO?

☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area?

☐ Yes ☒ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

1123 (G.1)

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

TPO 1123 (G.1) IDENTIFIES [10] AUSTRIAN PINES + [2] SILVER BIRCHES - REQUEST TO FELL 2 TREES AS FOLLOWS:

Request 1 - Felling Silver Birch.

Silver Birch [1] has been previously felled with reference to application 08/59783/005 March 2008. We are requesting to fell Silver Birch [2] as it has now died and is showing considerable decay and is in a dangerous condition.

Request 2 - Felling Austrian Pine.

We are requesting to fell one very large tree located midway in our rear garden. Over the years we have monitored the extreme lean which now appears to be in excess of 15 degrees, with all the significant weight of the main trunk and two even larger extended boughs which are all predominately located to one side of the tree, and feel that this is a potential and possibly imminent tree failure. The tree is at significant risk due to its size and height and large displacement and the fact that it has been subjected over the years to south westerly winds which have already brought down a number of existing trees in this location. We feel that the tree is in an extremely dangerous condition and is of a significant safety concern to my grandchildren who regularly play in the garden and to the general public at large.

As the site has already a significant number of trees as shown on the attached plan (i.e. there is a cluster of 3 Sycamore trees close by), we feel it may not be necessary to provide replacement trees. If the council request we replace with new trees we are happy to do so if required.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

☒ Yes ☐ No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.

If YES, you are required to provide for:

☐ Yes ☒ No

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

8. Trees - Additional Information

Documents and plans (for any tree)

Are you providing additional information in support of your application?

☒ Yes ☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application:

Attached to this application is a sketch plan of the site and the proposed work, together with supporting photographs.
