Subject: RE: Planning Application APP/17/00223 The Manor, Edward Gardens, Havant, PO9 3JJ

Dear Sir/Madam,

Thank you for consulting us on the above application Ref: **APP/17/00223** on the basis of information provided and the size of the proposed development Portsmouth Water does not object to the development. However, due to its location the developer needs to consider risks to groundwater.

We would therefore like to make the developers aware the proposed development is located within a Source Protection Zone One C (SPZ1c) of the Havant & Bedhampton Springs groundwater supply. This means that groundwater below the site will discharge at the Havant and Bedhampton springs, which are a critical public water supply for the City of Portsmouth and the surrounding area. Consequently, we ask that the developers take into account the sensitivity of the site and groundwater during the works.

Kind regards

Beth Fairley
