7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

TREET1 IS AN ENGLISH OAK IN EARLY MATURITY APPROXIMATELY 15 M HIGH.
THE CROWN CONTAINS LARGE AMOUNTS OF DEADWOOD AND OVERHANGS THE REAR GARDEN BY 5 METRES.

7. Identification Of Tree(s) And Description Of Works continued ...

The tree is in good condition but the crown contains a large amount of deadwood and ivy. The crown has been reduced in the past by persons unknown and has achieved three metres of new growth since this was implemented. Deadwood and other debris fall on Mrs Thomson's garden and the shading effect of the canopy inhibits the growth of her lawn. Mrs Thomson is concerned for the health of her tortoises which have to be kept in a pen at present for safety.

We suggest that all dead wood and ivy be removed and the crown is reduced by 20% by cutting back to the most recent pruning points and leaving a natural pleasant shape.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
