Our ref: 216227

Your ref: APP/17/00511 Proposed Gas fuelled Capacity Mechanism embedded generation plant to support the National Grid, Hermitage Park, Harts Farm Way, Havant, PO9 1FA

Dear Mrs McMurray

Thank you very much for consulting Natural England on the above application which we received on the 19 May 2017.

Natural England has no objection to the proposals in principle. We note that no ecological survey of the site has been undertaken and it is unclear from the documentation whether there is any potential ecological interest at the site. Therefore, we refer you to the advice of the County Ecologist and Natural England's standing advice on protected species.

Please let me know if you need any further information.

Kind regards
Rachel Jones

Natural England is accredited to the Cabinet Office Customer Services Excellence Standard.

Natural England offers two chargeable services – The Discretionary Advice Service ([DAS](#)) provides pre-application, pre-determination and post-consent advice on proposals to developers and consultants as well as pre-licensing species advice and pre-assent and consent advice. The Pre-submission Screening Service ([PSS](#)) provides advice for protected species mitigation licence applications.

These services help applicants take appropriate account of environmental considerations at an early stage of project development, reduce uncertainty, reduce the risk of delay and added cost at a later stage, whilst securing good results for the natural environment.
