Date Thursday 21st July 2016

Dear Sir,

Please find attached a full planning application to erect a corner garden shed in my garden.

I have been informed by Mrs Penny Ware on Friday 15th July that I require planning permission for the shed [this is something Bellway or my solicitors have not informed me of and neither has any of my neighbours been made aware of this ?]

My planning application is required because my PD rights have been removed according to Mrs Penny Ware.

The full dimensions of the shed are 2.5m for both lengths of the back of the shed with a maximum height of 2.43m [confirmed by Dean at Elfords Sheds]

I have also enclosed the original planned drawing by Elfords [sorry it is a rough drawing] and 3 copies of the planned site area confirming my property, one of which shows where the shed is to be erected within my garden.

I am sorry I have not enclosed official ordinance survey copies as there website system does not recognise my postcode currently.

I do hope all the paperwork I have included is acceptable to you, if not can you advise what further info you would like and I can hopefully assist.

I have been advised by Mrs Penny Ware to ask if you could review my application ASAP as my shed is scheduled to arrive at the end of August.

Kind regards

A handwritten signature in black ink, appearing to read 'M. Fenlon' with a stylized flourish at the end.

Mr Michael Fenlon
