Subject: FW: APP/15/00723: Dunsbury Park: Condition A16 Archaeology

Good afternoon James

Please see below for comments from CA.

As a discussed a variation of condition application based on the advise of the CA would be the appropriate way forward.

If you need any clarification please let me know.

Best Regards

Daphney Haywood

Subject: APP/15/00723: Dunsbury Park: Condition A16 Archaeology

Dear Ms Haywood,

APP/15/00723: Dunsbury Park: Condition A16 Archaeology

Thank you for your email and for forwarding the email from James Brewer regarding future archaeological work at Dunsbury Park.

I would be more than happy for Plots 3, 4, 4a, 5 and 5a to be the subject of an archaeological watching brief, provided that the topsoil strip was carried out under controlled conditions and under the supervision of an archaeological contractor. I would note however that there is strong evidence of complex archaeological features existing immediately to the north of these areas in the northern third of Plot 6. We would therefore advise that pre-commencement investigations are still carried out within this part of the site as it is highly likely that these features will require detailed archaeological investigation and it would be a good idea to get this work completed ahead of any further development.

If you have any queries, then please do not hesitate to contact me.

Yours sincerely,

Neil J. Adam BA ACIfA
Senior Archaeologist
