7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

This application is for consent to prune one English Oak subject to TPO 0555. The reasons given for the proposed work are to maintain the shape and allow more light into the garden and property of the applicant and the neighbours.

The tree is located in the western corner of the small rear garden and is surrounded by other properties and gardens.

The tree is a mature specimen, which has been heavily reduced in the past and could be described as being a pollarded tree.

In order to maintain a tree of its size in its location, a crown reduction of approximately 2 metres is considered to be appropriate management of this tree. The work should not harm its health or amenity value and therefore consent should be granted,

however the reduction should not exceed previous pruning points.

8 **Conclusion**

Recommend Permission

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/17/00274

(A)

(B) for the following reasons/subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).
Reason: In the interests of tree health and safety.
- 2 The tree pruning/surgery for which consent is hereby granted shall not exceed the following: Crown reduce 1No. Oak by 2m, subject to TPO 0555.
Reason: To safeguard the health and well being of the tree(s) and its/their importance in the local landscape.
- 3 The tree works for which consent is hereby granted shall be carried out and completed no later than 22/05/18.
Reason: To control the timing of the works
