

Tree Report:

None of the proposed development involves digging into the ground. In any event the only tree on the site is currently the subject of an application submitted to yourselves on 18.07.17 to fell, because it is diseased/dying, photo attached. This is being dealt with by HBC Tree Officer, Jamie Gargett. I believe he has agreed this can be felled. We assume therefore that an Arboricultural Impact Statement will not be necessary in this instance for not only the first but second reason.
