Dear David,

Request to Discharge Condition 4 (submission of a written scheme of investigation for archaeological site investigations) for Planning Consent APP/15/00303 for the Havant Health and Well-Being Complex

In accordance with the requirements of condition 4 of the above planning permission, our archaeological and heritage consultant has formulated a draft Written Scheme of Investigation and consulted the Hampshire County Council County Archaeologist, who has given his comments (which are that the proposals are acceptable).

In parallel, our ecologist has formulated a working method statement which would provide the framework for archaeological investigations to take place on the site whilst slow worms are present and being removed. This has also been sent to Hampshire County Council for its comments and approval.

We have attached the Written Scheme of Investigation/trench plan and Ecological PWMS and request that Havant Borough Council considers these sufficient to discharge Condition 4 of the permission. Given the pre-submission work carried out with key stakeholders at the county on these matters I hope and trust that the condition can be discharged promptly in order to allow archaeological works to progress at the earliest opportunity.

A cheque for £97 is enclosed.

Yours Sincerely

A handwritten signature in blue ink, appearing to read "L Searles".
