Thanks Stuart.

If you could amend the application that would be great.

Regards  
Adam.

**RE:** Reduce height 1No. Oak by 6 metres and width by 4m, within Woodland W1, subject to TPO 1614.

Dear Mr Kaye,

I write to you in relation to application APP/17/00638 at the above address for works to an Oak tree.

Having visited the site, the proposed specification would result in the tree possessing poor form and would have detrimental effect on the amenity value on the street scene.

However, it is evident that the tree is suffering from extensive dieback within the canopy with a significant amount of deadwood. This tree was previously the subject of an application to fell (APP/17/00063) at the beginning of the year. This was refused since at that time, without foliage it was not possible to assess the extent of the dieback.

However due to the poor condition of the tree, it would present an opportunity to replant a new Oak.

We would therefore propose a specification of: **Fell 1No. Oak tree within Woodland 1 subject to TPO 1614.**

Would you agree to us amending the application with the new specification above, for which we would recommend permission?

I would be grateful if you can reply at your earliest convenience.

Yours sincerely
