Commenter Type: Consultation modified

Stance: Customer made comments neither objecting to or supporting the Planning Application

Comment Reasons:

Comment: We live opposite the proposed development. We have concerns over the management of the building works due to this being a close with limited parking and access at the best of times. In particular, how will the builder access the site due the nature of the positioning of the existing hedge and the birch trees on the road verge in front of the existing property? We do not want problems accessing our own driveway. We are not opposed to the development but would like to be reassured over our concerns.
