7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Appropriateness of design and impact on the character of the area
- (iii) Effect on neighbouring properties

(i) Principle of development

7.2 The application site is located within the defined urban area, therefore development is considered acceptable in principle subject to development management criteria.

(ii) Appropriateness of design and impact on the character of the area

7.3 The rendered walls are not visible from the streetscene and therefore the application is considered to be acceptable, meeting the requirements of Policy CS16 of the HBLP (Core strategy). It is considered that the scheme would not result in an adverse impact on the visual amenity of the locality.

(iii) Effect on neighbouring properties

7.4 It is considered that the changes to the external materials are likely to have limited and acceptable impact on the properties immediately adjacent to the application site and the properties opposite or to the rear, meeting the requirements of Policy CS16 of the HBLP (Core Strategy). It is noted no letters of objection were received with respect to the scheme.

8 Conclusion

8.1 The scale, siting and design of the proposal would have limited and acceptable impact on the neighbours and is therefore considered to be appropriate and recommended for approval.
