Address: St marys road hayling island

Comment Details

Commenter Type: Complainant

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object due to the fact that the roads can not cope in the winter on hauling island let alone in the summer when there are an extra few thousand heads coming down each day. The local schools and doctors are stretched to the max and have been for some time. With the increase in people emergency services will find it harder and harder to get on to the island especially in summer with the traffic clogging back up onto the slipways of the A27. There is the issue with where the drainage and how will it get disposed of without being dumped straight in to the water we use in an attempt to get tourism. There won't be any tourists if our natural features of the island are all ruined. The wild life on the island is in danger especially the migrating brent geese who stop and feed on rook farm every year. Traffic at the tournebury co op is already a nightmare add any more in this small area and there will be a huge problem that will need sorting out.
