On Behalf Of: Conservation Officer

Comments

Principal Conservation Officer No Objection

36 Grove Road sits within the St Faiths Conservation Area, the road is a mixture of detached and semi detached dwellings of Victorian/Edwardian period. A key feature of the road is the presence of low level boundary walls whilst the walls vary in style they are by in large original to the individual properties.

Section 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 requires planning authorities, when considering whether to grant planning permission for development which affects a Conservation Area, to have special regard to the desirability of preserving or enhancing the character and appearance of that area.

Having recently dealt with a similar application in Grove Road for the removal of a section of wall it appears that this work is permitted development. Therefore I have no objection to these works.

The single storey extension to the garage is of a design and size that would not cause any adverse impact on the character of the Conservation Area. The extension is also in keeping with existing property/ garage and would not appear overly dominant.

No objection subject to the following condition:

1) Materials to match.
