Comments

The submitted proposals have been clearly and comprehensively detailed. I am satisfied that these correspond appropriately with the associated master-planning documentation. On this basis, there is no landscape objection to the application.

There is only a very minor observation - proposed litter bins are indicated at very close proximity to seats. During periods of warmer weather, I doubt anyone would be keen to sit beside a source of adverse smelling dog waste / litter and wasps. Perhaps it would be preferable to place bins further away from seats and closer towards the zone departure points or route junctions?

Kind Regards,

Michelle Good CMLI
