Dear Sirs

Please find enclosed the retrospective planning permission form and associated documentation for the two air conditioning units fitted to the rear of our property.

Having consulted with Planning Aid UK I understand that these units would ordinarily be allowed under PDR but for clause 13 of APP/14/00439 granted by yourselves to Kalotec Limited for this site's development. This being the case the fee of £172 would not apply in this instance.

For your information, and as an additional note to the application, these units are virtually silent in operation and fitted in a position so as not to be an eyesore or obstruction to anyone other than ourselves, and I have received no direct complaint from anyone in the local vicinity.

Further to this we would welcome a visit from the planning officer at your earliest opportunity.

Yours faithfully

Andrew J Stemp
