

Response to satisfy Condition 3 of approved permit

Application Number: APP/15/01077

Site Address: 1 John King Shipyard, Emsworth. PO10 7AY

Proposal: Revised fenestration with replacement windows along with new balcony to south elevation

The following is a specification of the materials and finishes for the window frames to be used under the proposed planning application APP/15/01077. This submission is provided in order to satisfy condition 3 of the permit approved 20 November 2015.

Proposed replacement windows:

Manufacturer: Smart Architectural Aluminium
Type: Alitherm 300/600
Profile: Square edged
Colour: Light Grey KL012 (see sample)

NB: The size of window will dictate the use of either the Alitherm 300 or 600. The 300 series is preferred as this has minimum size profiles, but larger windows may require the 600 profile in order to ensure structural integrity.

Enclosures:

Sample of proposed colour – on aluminium profile

Alitherm Series brochure – 3 pages (indicating Alitherm 300 and 600 series)

Typical section profile sheets x 2 – Alitherm 600 v06 2013 – C Section -10 & Alitherm 300 (Std Stay) v07 2011 – C Sections – 6.
