

The drawing is the property of The North Ridge Group and must not be reproduced, in part or whole, or exhibited here, without their permission.

It is essential that prior to commencement and during construction works, the contractor involves the designer and specialist and discusses with the practice any health and safety issues.

For both **planning** and **construction** purposes, Structural, Mechanical and Electrical Engineers draft, calculate and **draw** etc. see

NOTE
DismalPy based on The Map and the Survey Information.

Distances based on ProMap and the survey information.
