

2430

A line drawing of a closed garage door. The door is closed and has horizontal lines indicating its segments. Above the door is a gabled roof. On either side of the door are vertical pillars or posts. The drawing is simple, using only black outlines on a white background.

A diagram of a building facade. At the top is a dark, textured horizontal band representing a roof or upper wall section. Below this is a large white rectangular area with horizontal lines, suggesting a window or a large panel. To the left of this large area is a small white rectangular area, possibly a door or a side panel, with a small handle-like detail. The entire diagram is enclosed in a thin black border.

MATERIALS:

Existing walls constructed from interlocking untreated spruce (weathered naturally).

Existing roof is multi-layer bitumen felt

All glazing is spruce framed.
