The Employment and Skills Plan

Appendix 1: Employment and Skills Plan

Site: St Michaels Convent, 354 London Road, Waterloooville
Landowner/developer: Linden Ltd trading as Linden Homes Southern.
Planning application number: APP/12/00760 and APP/12/00761
This document forms the developer's response to sections 9.1 of the Section 106 Agreement between Linden Homes Ltd and the Council of the Borough of Havant dated 2012.
Development: APP/12/00760 – main development consent Demolition of later additions to side and rear elevations of listed Convent. Complete removal of already partially demolished link between Church and Convent. Conversion and refurbishment of former Convent building to 17 No. apartments. Erection of 65 dwellings, fencing, landscaping, public open space and alterations to existing accesses to London Road and Hulbert Road.
APP/12/00761 – listed building consent Demolition of later additions to side and rear elevations of listed Convent. Complete removal of already partially demolished link between Church and Convent. Conversion and refurbishment of former Convent building to 17 No. apartments.
The development of St Michael's Convent will contribute a number of employment opportunities to the people of the borough. The Employment and Skills Matrix in this document outlines precise numbers of Apprenticeship opportunities, Graduate Placements and the number of locally advertised job roles. These three themes are the focus of our contribution but are not the sole contributors to local employment opportunities. Apprenticeships: This development will engage a minimum number of 4 apprentices. All apprentices will be fully employed at the time they commence their programme. We are committed to Apprenticeship opportunities being created and actively engage all of the supply chain to maximise the opportunities for young people. We have engaged over 120 apprentices to date and have a retention rate of over 96% on our programme. A significant number of our apprentices are recruited from those that are NEET (Not engaged in Employment Education or Training) at the start of the programme. Graduate opportunities: We will engage with graduates as part of this development. Our minimum engagement target will be 1. This will be through our academy that recruits, trains and provides relevant experience to those in pre and post graduate employment. We actively recruit local people for local jobs.

Local Employment opportunities: Our supply chain are committed to sourcing local labour and actively recruit using local Job Centre+ offices and other forms of local advertising. We envisage that this development will result in a minimum of 7 job opportunities being made available to those in the Borough of Havant.

Further to this we will engage with the Havant Skills and Employability Partnership to promote and develop all training and employment opportunities.

Monitoring

Please provide details on how the Employment and Skills Plan will be monitored.

The Employment and Skills Plan will be monitored by Trevor Lee-Cann Construction Manager and David Cole Construction Director

Monitoring will take place on a monthly basis with a formal reporting period of every three months. This will take the form of the submission of an updated target matrix outlining progress against the agreed targets. It is envisaged that this will take place on site with the support of Trevor Lee-Cann / David Cole and the nominated Economic Development Officer for Havant BC.

The targets will be broken down into milestone achievements over the duration of the development. This will ensure that the targets are met over time and any areas not meeting the profile easily identified and remedied.

We would expect monitoring to commence six months into the project; approximately July 2013.

Category	Steps to achieve
Work placement (16-19 years)	Work placements form part of all apprenticeship opportunities. Under the Linden Homes Apprenticeship Programme all new entrants undergo a two week work trial to ensure that they are suitable for the role. Learners are recruited from the local area and engagement is from those in the NEET group or those looking to enhance their level 1 qualification gained in full-time education. <i>This will be monitored by Trevor Lee-Cann/ David Cole and we will report quarterly on this target.</i>
Work placement (19+ years)	Please see Employment and Skills Matrix
Curriculum support activities – individual engagement	All young people engaged on the programme are supported with the application process, Health and Safety training and personal development to ensure they are able to attend interviews and work trials. <i>This will be monitored by Trevor Lee-Cann/ David Cole and we will report quarterly on this target.</i>
Graduates - persons	Recruitment for our Graduate Training Programme takes the form of access to our in-house Academy. We engage with over 100 pre and post graduate students at any one time. This offers them employment and the opportunity to continue with their study whilst gaining valuable work experience. <i>This will be monitored by David Cole and we will report quarterly on this target.</i>
Apprentice starts – persons	The Linden Homes Apprenticeship Programme has been implemented to ensure opportunities for young adults are available across our developments. Young people are recruited by our programme and placed with our supply chain to continue in their studies and gain valuable work experience. The dedicated apprenticeship team adopt Employment and Skills Plans targets and through negotiation with the supply chain implement the strategy to achieve the defined targets. <i>This will be monitored by Trevor Lee-Cann/ David Cole and we will report quarterly on this target.</i>

Existing apprentices – persons	We currently have over 120 Apprentices on the Linden Homes Apprenticeship Programme. Learners are sourced by our team for local projects and placed with our supply chain. <i>This will be monitored by Trevor Lee-Cann/ David Cole and we will report quarterly on this target.</i>
Apprentice completions – persons	The duration of this project means it is unlikely any learner who commences an apprenticeship will complete by the time the development is finalised. We will ensure this objective is met by placing our existing apprentices on our programme on the St Michael's site during the development. <i>This will be monitored by Trevor Lee-Cann/ David Cole and we will report quarterly on this target.</i>
Jobs advertised through local employment vehicles – number	Our supply chain will commit at the outset to advertise all employment opportunities through the JC+ offices in the Borough. <i>Adherence to this will be monitored by Trevor Lee-Cann / David Cole and we will report quarterly on this target.</i>
NVQ starts for sub-contractors	All of our supply chains are encouraged to assess training needs on an ongoing basis. This identifies the full range of training activities being undertaken by the contractor's staff. Linden Homes actively encourages staff development and the process clearly identifies starts on training linked to NVQ's. <i>This will be monitored by Trevor Lee-Cann/ David Cole and we will report quarterly on this target.</i>

This identifies the full range of training activities being undertaken by the contractor's staff. Linden Homes actively encourage staff development and have implemented its own programmes to ensure supervisor training is completed. The ongoing dialogue with contractors clearly identifies those who have completed this element of the programme. <i>This will be monitored by Trevor Lee-Cann/ David Cole and we will report quarterly on this target.</i>

- 2 Notwithstanding the details set out within the "Schedule of Materials", the dwellings hereby permitted shall not be constructed above DPC level until details (with samples where requested) of all external facing and roofing materials shall be submitted to and approved by the Local Planning Authority. Thereafter only such approved materials and finishes shall be used in carrying out the development.
Reason: In the interests of visual amenity and having due regard to policies CS11 and DM8 of the Havant Borough Local Plan (Core Strategy) which forms part of the Development Plan and National Planning Policy Framework, March 2012.

- 3 No development hereby permitted shall be constructed above DPC level until a specification of the materials to be used for the surfacing of all open parts of that phase proposed to be hardsurfaced has been submitted to and approved in writing by the Local Planning Authority. Each development phase hereby permitted shall not be brought into use until the implementation of all such hardsurfacing has been completed in full accordance with that specification.

Reason: In the interests of visual amenity and having due regard to policy DM8 of the Havant Borough Local Plan (Core Strategy) which forms part of the Development Plan and National Planning Policy Framework, March 2012.

- 4 No development shall start on site (or in the event of a phased development, before any works commence on each approved phase) until a full detailed landscape and planting scheme for the site has been submitted to and approved in writing by the Planning Authority. The works shall be carried out in accordance with the approved details and in accordance with the recommendations of the appropriate British Standards or other recognised codes of good practice. These works shall be carried out in the first planting season after practical completion or first occupation of the development, whichever is earlier, unless otherwise first agreed in writing by the Planning Authority. Any trees or plants which, within a period of 5 years after planting, are removed, died or become seriously damaged or defective, shall be replaced as soon as is reasonably practicable with others of species, size and number as originally approved unless otherwise first agreed in writing by the Planning Authority.

Reason: In the interests of visual amenity and having due regard to policy DM8 of the Havant Borough Local Plan (Core Strategy) which forms part of the Development Plan and National Planning Policy Framework, March 2012.

- 5 The proposed works must be carried out in accordance with the Arboricultural Impact Appraisal and Method Statement prepared by Barrell Tree Consultancy, received by the Planning Authority on 16/08/12 and the Tree Protection Plans (Drawing Nos. 4140/001, 11373-BT4b, and 11373-BT4c).

Reason: To ensure the trees are not adversely affected by the construction of the development and having due regard to policy DM8 of the Havant Borough Local Plan (Core Strategy) which forms part of the Development Plan and National Planning Policy Framework, March 2012.

- 6 The conversion and demolition of the various existing buildings hereby permitted shall not be carried out other than in full compliance with the following documents:

Method Statement to accompany Natural England EPS licence application in respect of

bats – Document 1 (Background and Supporting Information) dated July 2012.

Method Statement to accompany Natural England EPS licence application in respect of

bats – Document 2 (Delivery Information) dated July 2012.

Ecological Assessment Report – April 2012

Reason: To ensure effects of the development upon biodiversity and the natural environment are adequately mitigated and having due regard to policies DM8 and CS11 of the Havant Borough Local Plan (Core Strategy) which forms part of the Development Plan and National Planning Policy Framework, March 2012.

- 7 No development shall commence beyond general site clearance, enabling works including demolition and investigations on the site until details of the design, depth and type of building foundations and the layout, with positions, dimensions and levels, of service trenches, ditches, drains and other excavations on site, insofar as they may affect trees and hedgerows on or adjoining the site, have been submitted to and approved in writing by the Local Planning Authority.

Reason: To safeguard against undue damage to existing trees and/or other vegetation at the site and having due regard to policies CS11 and CS16 of the Havant Borough Local Plan (Core Strategy) which forms part of the Development Plan and National Planning Policy Framework, March 2012.

- 8 No development shall take place until a surface water drainage scheme for the site, based on sustainable drainage principles and an assessment of the hydrological and hydro geological context of the development, has been submitted to and approved in writing by the local planning authority. The drainage strategy should demonstrate the surface water run-off generated up to and including the 1 in 100 year 30% critical storm will not exceed the runoff from the undeveloped site following the corresponding rainfall events. The scheme shall subsequently be implemented in accordance with the approved details before the development is completed. The scheme shall also include details of how the scheme shall be maintained and managed after completion. The development shall only be implemented and shall be managed and maintained in accordance with the details thus approved unless the Local Planning Authority gives prior written approval for any variation.
