Thank you for consulting me on this application. Thank you for your patience.

The application is not accompanied by any ecological information. I have therefore carried out my own non-exhaustive desk-based assessment using the application documents, online sources and GIS mapping. I consider that the extent of proposed works are not likely to result in impacts to protected or notable species and therefore I do not consider that ecological assessment is justified.

If you have any queries please don't hesitate to contact me.

Kind regards,

Tristan
