Proposed carport to be a lightweight timber structure

Built entirely within the boundary, eaves and gutter will not project over the boundary line.

Existing hedge to be grubbed out and replaced with a 1.8m high close board fence.

Carport to be constructed of 150 x 150 timber posts, 150 x 75 plate halved over posts to carry 50 x 100 timber roof structure with anthracite-coloured corrugated sheets.

Front, back and boundary side to be completely open
