Comments

Thank you for consulting the Environmental Protection Team on this application. These comments relate to noise only. My comments assume that the jet wash bays are for handheld jet washes.

We recommend permission be refused in order to avoid noise from the jet washes giving rise to significant adverse impacts on health and quality of life. There is insufficient information provided with the application to determine whether the noise impact would be acceptable. Paragraph 4.2 of the noise report refers to another noise report "dBx Acoustics Ltd report reference 23088-R01-SW dated 3rd November 2023" which we should wish to see before we can provide further comment. It is unclear whether the noise measurements taken of the plant in report 23088-R01-SW will be the same as the proposed plant.
