Chapter 16 of the NPPF relates to **the Historic Environment** including paragraphs 195 – 214. The building subject to this application is not listed but is deemed to be a non-designated heritage asset (as set out in the introduction) and therefore the following paragraphs are most relevant to the determination of this application:

Para 207 states that:

*'where a development will result in **substantial harm to, or total loss of**, the significance of a designated heritage asset, permission should be refused, unless this harm is necessary to achieve substantial public benefits, or a number of criteria are met. Where less than substantial harm is identified paragraph 208 requires this harm to be weighed against the public benefits of the proposed development*

Para 208 states that:

*'Where a development proposal will lead to **less than substantial harm** to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal including, where appropriate, securing its optimum viable use'.*

Para 209 states that:

'The effect of an application on the significance of a non-designated heritage asset should be taken into account in determining the application. In weighing applications that directly or indirectly affect non-designated heritage assets, a balanced judgement will be required having regard to the scale of any harm or loss and the significance of the heritage asset'.
