

Reference APP/24/00186 | Application for approval of all Reserved Matters (siting, scale, external appearance and landscaping) relating to Phase 2 (Wetland) of the Thicket Reservoir development pursuant to condition 2 of the Hybrid permission planning reference APP/20/00990 dated 15th October 2021. | Havant Thicket, adjacent to Sir George Staunton Country Park, Middle Park Way, Havant

Hi Havant Planning,

Arboricultural comments for the above application: for this phase, there does not appear to be any impact on trees unless there is need for an access route to facilitate the construction: this is not clear from the documents that I've looked at. I'm aware that this is a huge project and that we are commenting on only part, and that the creation of wetland habitat will result in tree loss over time. As planning consent has been granted, I'm not sure how we can add much to the discussion at this point, but wanted to let you know that we are here if arboricultural comments are required, but I'd need briefing please as understanding the entire scheme from supplied documents will be very time – consuming.

Please advise if arboricultural advice is needed.

Kind regards,

Sarah
